## EDUCATION

### **The University of Texas at Dallas | Richardson, TX | Junior**

**December 2024**

- Bachelor of Science in Computer Science – GPA: 4.0
- Relevant Coursework: Computer Science, Computer Architecture, Data Structures and Algorithm Analysis, Automata, Digital Logic, Discrete Mathematics for Computation, Electricity and Magnetism, Mechanics, Differential and Integral Calculus, Linear Algebra

## EXPERIENCE

### **U.S. Department of Defense – Armed Forces | Texas Army National Guard**

**March 2020 – Present**

- Inspect military transportation units (LMTV, HUMVEE, etc.), report malfunctions for maintenance team
- In charge of handling multimillion-dollar military equipment, transport cargo for project sites using heavy-duty trucks (LMTVs)
- Read, interpret, and take initiative to implement construction project drawings with other construction engineers in same or many platoons into job sites
- Closely complete tasks set forth by leaders and accurately report mission outcomes to senior Non-Commissioned Officers
- Clean, maintain, repair, and inventory firearms and other weapon systems

### **GXM Contractor – NSIN (Army) | Software Engineer**

**June 2022 – August 2022**

- Convert the current GUI code of a software, as part of WSMR Modular Real Time Enterprise for high-speed projectiles performance data analysis, written in gtkmm2 API to gtkmm3 API: removing deprecated functions, engineer solutions for code errors due to incompatibility between API versions
- Expand software compatibility, improve GUI aesthetics, and maintain functionality from Linux to Windows by unifying different OS-dependent third-party libraries and updating the current C/C++98 code to C/C++17
- Compile libraries and write Python scripts for the above software for operation in both Windows and Linux environment. Lay foundations for future updates which introduces compatibility for Android Operating Systems

### **Mathnasium | Mathematics and Physics Tutor**

**June 2019 – May 2020**

- Tutor math ranging from K-12 including specialized topics including Calculus, Linear Algebra, Statistics, IB Math
- Tutor high school physics to college-level, calculus-based physics (Mechanics and Electric & Magnetism)

## SKILLS

- Software: C++, C, Java, HTML, CSS, TypeScript, JavaScript, ReactJS, Python, MIPS Assembly, Bash Script
- Tools: Node.js, gtkmm, Linux Command Lines, AutoCAD, Microsoft Office, GitHub, Heroku, Firebase
- Other: Mathematics, Physics, Vietnamese (Native Language), Japanese (Beginner)

## PROJECTS

### **Project Yumiya | NodeJS, ReactJS, Google Map API, Google Calendar API, OpenWeatherMap API, Heroku**

**In-Progress**

- A web-based application that support users' time management by highlighting and summarizing daily events, providing a quick-access note taking user interface, and providing insights to potential unexpected external factors that affects planned events

### **Retire Match | ReactJS, HTML, CSS, JavaScript**

**HackDFW 2022**

- An extension to TIAA's financial consulting website that shows applicable retirement plan options after users classify their job type, time until expected retirement, contribution, tax model, etc. This help simplify and improve the users' understanding of retirement

## INVOLVEMENT

### **Artificial Intelligence Society | Back-end Software Developer**

**February 2022 – September 2022**

- Back-end development using TypeScript and Discord API to improve and add new functionalities for the organization's instant messaging platform, aiming to engage and encourage more interactions between members of the organization

### **Texas A&M Machine Learning | Camp Counselor**

**July 2021**

- Technical help and guide an assigned group of 4 middle school and high school students creating a PowerPoint and demo addressing the statistics of Coronavirus cases
- Coordinate the 3-day camp event with the official organizer, monitoring students, and taking accountability of campers

### **TAMU Hack | Mentor**

**January 2022**

- Technical help with development tools and general programming fundamentals, syntax, logic, data structures, and algorithms

## CERTIFICATION

- *HackerRank Problem Solving (Basic)* | HackerRank
